

Dr. H. C. Wrinch, M.L.A. Opened Bulkley Valley Seed Fair on Friday Last

In the regular classes there were not as many exhibits as in previous years, but all exhibits were of very high quality. The exhibits of ten-bushel lots of seed were the outstanding class in the fair, particularly the classes for seed oats.

An attractive display of seed grains was put on by Miss Dora Huber of Smithers.

Dr. H. C. Wrinch officially opened the fair at 2:30 p.m., November 18th. There was a very good attendance of exhibitors and other interested parties. In his opening remarks Dr. Wrinch referred to the development that had taken place along agricultural lines since the time early settlers had located in the district. At one time it was thought impossible to produce marketable potatoes. The exhibits of potatoes in the fair prove that the district can produce a potato the quality of which is equal to that produced in any of the best potato growing districts in the province. Similar ideas were held regarding the production of grain, but the reports from the elevator at Prince Rupert show that some of the finest carloads of wheat shipped into the port of Prince Rupert were produced in the Bulkley Valley.

Dr. Wrinch referred particularly to the ten-bushel seed exhibits. In addition to the educational value of a district seed fair, these ten-bushel lots of seed being shown and offered for sale at the fair was a great aid to exhibitors in marketing their crop, making the fair of greater commercial importance.

The seed was judged by Mr. D. Sutherland of the Peace River district. Mr. Sutherland stated that the quality of seed displayed was a credit to the district. The following is a list of the prize winners:

Class 1, Oats—A. McMillan, Evelyn; A. Peacock, Telkwa; Mrs. Frank Huber, Smithers.

Class 2, Spring Wheat—J. Owens, Evelyn; 2, Dora Huber, Smithers; A. Johnson, Evelyn.

Class 3, Fall Wheat—Dora Huber, Smithers.

Class 4, Barley—Dora Huber, Smithers; A. McMillan, Evelyn; C. J. Killer, Telkwa.

Class 5, Fall Rye—Mrs. F. Huber, Smithers; A. Peacock, Telkwa.

Class 6, Field Peas—A. McMillan, Evelyn; Mrs. F. Huber, Smithers; C. J. Killer, Telkwa.

Class 7, Timothy—Mrs. C. Barrett, Barrett Lake.

Class 13, Flax—Dora Huber, Smithers; Mrs. F. Huber, Smithers.

Class 16, Certified Netted Gem Potatoes—Hamlin & Thompson, Terrace.

Class 17, Certified Gold Coin Potatoes—C. J. Killer, Telkwa.

Class 19, Seed Potatoes, any variety—A. P. Legerton, Smithers; J. Owens, Evelyn; W. Billeter, Smithers.

SPECIALS

Seed Oats, ten-bushel lots—A. McMillan, Evelyn; A. J. Peacock, Telkwa; W. Billeter, Smithers.

Spring Wheat, ten-bushel lots—Geo Sharp, Smithers; J. Owens, Evelyn; Barley, ten-bushel lot—A. McMillan, Evelyn.

ORIENT WANTS VEGETABLES

China is looked upon rather as a producer than as a consumer of vegetables, but a telegram received by the B. C. markets division from Shanghai indicates some need of import to that country. The cable asks for a supply of fourteen tons of potatoes and seven tons of onions from British Columbia for British army use to be delivered in January. Enquiries are being made by the markets division with a view to filling the order. In its last sailing from Vancouver the Empress of Asia took out 800 sacks of onions and 100 sacks of potatoes for Hong Kong. There were also 1400 boxes of apples for Shanghai.

PROFIT IN EASTERN WAR

About the only place where there seems to be anything doing of a nature to incite interest is in the far east where the Japs and Chinamen are going to it with both feet. Importers will be glad to see the scrap go on, it is good for business. With the war that far away (if it stays there) the big business interests on this continent can afford to talk peace and goodwill, the League of Nations, etc., and keep shipping out those things that will keep the fight going. B. C. go an order for 14 tons of spuds and tons of onions—just what one Vancouver Chinaman could put out in a short day. Yet the Provincial press department sends out a special despatch to tell the world of B. C.'s good fortune and the great value of the B. C. Market Commissioner and his staff.

PAINTED IN NORTHERN B. C.

British Columbia's appeal to the artist has drawn another recruit to the art colony here in Mr. Lowrie Warener of Toronto, painter and sculptor, whose work has already attracted wide notice. Between Smithers and Hazelton he painted some fifty scenes which attracted him. He spent about six weeks in the vicinity, concluding with what he considers most interesting studies of the totem poles at Kitwanga.

Mr. Warener received honorable mention in the Willingdon competition for the head of Herman Vanden, M.A. He also, on invitation, exhibited at the British Empire Exhibition in Buenos Aires a canvas entitled "Northern Night." He has been an exhibitor at the Ottawa Art Gallery for some years. He began his art studies in Toronto then went to Belgium and later to Paris.

The Omineca Herald is \$2.00 a year

REV. T. H. WRIGHT HOME

After an Absence of Four Months a Former Minister here Returns From Trip Abroad

Rev. T. H. Wright, B.A., arrived in Montreal on October 19th where he remained for a week and preached in the Verdun Presbyterian church. In Toronto he was the guest of his sister-in-law, Mrs. Walter Watts. During his stay in the city he visited Arthur Wrinch in the hospital where he was received as a welcome visitor. The patient was surprised to see Rev. Mr. Wright.

Winnipeg, Regina, Saskatoon and Kamloops and Ashcroft were the next cities visited en route west. While in Regina Mr. Wright was the guest of the Board of Trade at a great banquet at which prizes in money were given to the farmers for the best grain shown, such as wheat, barley and oats.

Last Sunday Mr. Wright officiated at North Kamloops church and on Tuesday afternoon visited Tranquill, Sanitarium with Rev. Henry Willson and Judge Swanson. Rev. George Pringle who has been a visitor to Hazelton is a patient in the sanitarium.

Coming on to Ashcroft Rev. Mr. Wright read the scripture lessons at the Armistice services which were in charge of the United Church and the Anglican church of the town. There was a large turnout and an impressive service was held.

Mr. Wright expects to reach Vancouver on Tuesday morning and he will reside at 2475 15th Ave., W. Vancouver.

The Lord Mayor of Newcastle-on-Tyne sent greetings and well wishes through Mr. Wright to the mayor of Vancouver in a unique document.

A BROKEN RIB AND BRUISES

Dr. H. C. Wrinch, M.L.A., is not feeling just as spry as usual, and if his feelings are like our own were under similar conditions, we would advise all and sundry who have business to transact with him to postpone it for a week or two, unless it is of the utmost importance. On Monday evening the Doctor started off by car to make a professional call in New Hazelton. At a point between the hospital and Two Mile corner the car skidded, turned over and stopped. When the Doctor got himself gathered together he found he had a broken rib and a number of un-beautiful bruises. He returned to the hospital for first aid and for the next few days he will not go skating.

THOSE AUTO LICENSES

Motor licenses in British Columbia for the current year will show some decrease in numbers from 1930. To 97,586 for the whole of last year. As October registrations numbered 803 it shows that they are still coming in. Even at the present standing this year's figures are well above those of the boom year 1929 which should a total of 94,912, while in 1928 registrations were 84,956 or 11,000 less than for present year to date.

GOOD TALK FOR CANADIANS

One hundred and eleven new factories have started in Canada recently and eleven of them were British; every cent increase in the price of wheat means two and a half million dollars to Canada; for the first time in the last twenty years Canada has balanced her trade with the United States; thus spoke Hon. H. R. Stephens in Brantford recently. He also advocates that Canada do its financial business in London instead of New York. That kind of talk is what Canadians need to waken them to the fact that the British Empire is not merely a name.

B. C. DRIED PRUNES

Terrace Needs a Canning Factory to Care for all Surplus Fruits

Following experiments over a series of years at Dominion Experimental stations on Vancouver Island, this year shows that prunes of the best quality can be successfully grown and dehydrated there. Canada imports prunes and dried plums annually to the value of about \$1,000,000. If they can be successfully raised and dried on a large scale it will mean that Canada will be able to supply its own needs without further importations.

In the Terrace district prunes and a blue plum very similar to the prune and an excellent plum for canning, are successfully grown. It would be worth while trying hydrating those plums. Terrace should at least have a canning factory to take care of the surplus fruit, the second and third grades. At present they are wasted to a very large extent. The use of the surplus or the waste of it is the difference between success and failure. There is enough fruit in Terrace and there are enough men with money in Terrace to proceed with a canning factory.

TO OPERATE ON LORNE CREEK

Reports of Substantial Company Taking Hold of Corley Property and Operating it Soon

It is reported a deal is about completed by S. A. Corley and associates with a large concern to operate the placer claims they hold on Lorne Creek. The company have an extensive plant available to put on the ground and it is fully expected a good sized operation will be underway in a very short time on those well known gold bearing gravels. In the past Mr. Corley has put a good deal of money into Lorne Creek, and he also took a lot of money out. His greatest trouble was to get sufficient capital together at one time to operate on a large scale.

MASONS RAN INTO COLD SNAP

The masons who went to Smithers on Saturday night to spend the week end with the members of Omineca Lodge, received a cool reception from the weather man which only tended to make the welcome from Omineca Lodge seem the warmer. But the boys from the coast got a good cooling off while in the Bulkley Valley and they were glad to beat it back to the good old dampness of Prince Rupert. But of course they did not say so out loud. The first cold snap of the season and the one that always comes along between the first and fifteenth of November, put its appearance off until the last minute and accompanied the Masons in. There was about a dozen degrees below zero in Smithers during the stay—just a little reminder of what is coming later on. We really can do much better than a dozen below zero.

EARLY SKATER GOT ALL WET

Skating on the lakes and ponds was indulged in by the younger generation during the last few days of last week and there is no reason why it should not continue during the weeks to come. Of course there are always those who want to be first on the ice, as there are those who want to be first to get into the water in the spring. Usually one or more go through the ice at the hospital lake before the ice is really safe and this year was no exception. One young man got quite wet and had to run home for a change of clothes and to get warm. His mother lives a long way from Hazelton and therefore could not check up on his gongs and comings. Like the little froggie who would a-wooloo go.

LATE MRS. L. L. DeVAIN

Died Suddenly in Smithers Friday Evening—Funeral on Tuesday Afternoon

It was with something of a shock the people of Smithers learned last Friday night that Mrs. Gertrude DeVain, widow of the late L. L. DeVain, had passed away suddenly. She was apparently in her usual good health during the afternoon when she was talking with a number of friends in Smithers. It was about seven o'clock in the evening that she collapsed and expired before she could be got to the hospital.

The late Mrs. DeVain was connected with the Smithers hospital for years. It was while there that she met the late L. L. DeVain whom she married and together they carried on a dairy farm on the outskirts of Smithers. Since the death of Mr. DeVain Mrs. DeVain carried on the business alone and with a degree of success, as she was a good business woman.

The funeral was held on Tuesday afternoon and interment took place in the Smithers cemetery. A very large number of people turned out to pay their respects to the departed. There were no children by the marriage.

Cedervale Notes

The Parents-Teachers Association held a successful sale of home-cooking in the school house here on Wednesday, Nov. 11. Before the sale the following program was run off:—

O God our help in ages past.
The meaning of Armistice by W. C. Little.

In Flander Fields by Kathleen Tomlinson.

We are the Living by Wm. Thompson.

Just Before the Battle Mother by Mrs. Cadwallader, Mrs. Brew and Kathleen Cadwallader.

Hyavatha's Hunting, record, Walter Tomlinson.

Duet by Olive Mulvain and Melba Bruce.

Mary Ann, record, by Kathleen Tomlinson.

Happy Thought, record by Mary Tomlinson.

The Rose of No Man's Land, Trio.

It's a Long way to Tipperary, trio.

Mary's Lamb by Mrs. Tomlinson.

The sale was very well attended in spite of the bad weather.

Mrs. Moberly who has been visiting her daughter has returned to Duck Lake.

USK NOTES

There was a dance last Saturday night in honor of Mr. and Mrs. Geo. Alger, who were recently married. A very enjoyable time was spent. Seventeen people came from Terrace thus expressing the esteem of the district for the happy couple.

Mrs. Durham returned on Sunday from a trip to Smithers.

Messrs. P. Skinner and Willman were visitors to Terrace last Thursday.

Mrs. S. A. Alger and Miss Margaret Alger returned from a trip to Rupert yesterday.

Miss Ivy Alger, R.N., of Prince Rupert spent last week with her people here.

Leo Burns of Endako who has been a patient in the Hazelton Hospital for a week or two, left for his home on Monday evening feeling quite well.

Mrs. W. W. Anderson is able to be around again after being tied up with the flu for two or three weeks. She says the flu is not popular with her.

Dr. H. C. Wrinch, M.L.A., who opened the seed fair at Smithers and then came home and broke a rib when his car skidded and turned over.

Albertan Wins Golf Classic

MR. J. LESLIE BELL

Member of the Calgary Golf and Country Club, who defeated his club mate, Mr. Ben Cool, to capture the silver Totem Pole trophy, emblematic of the annual golf week championship at Jasper Park Lodge. This is the first time in six years of competition the trophy has been won by a player from Alberta. Golf Week at Jasper Park Lodge is held every year during the second week in September, and is one of the most delightful golfing holidays on the Continent.

Leo Burns of Endako, who has been a patient in the Hazelton Hospital for a week or two, left for his home on Monday evening feeling quite well.

Mrs. W. W. Anderson is able to be around again after being tied up with the flu for two or three weeks. She says the flu is not popular with her.

WORTH MORE AND LOOKS IT

"That honey is the finest I have ever seen," declared an Ottawa retailer the other day as he opened a case of Fancy White new crop honey which had been graded and marked in accordance with the new regulations. "It ought to be worth 5 cents a pound more than the other lot anyway." His trade apparently agreed with him because it didn't take long to move the case. Just another case where quality counts. When the customer knows what he is getting he is satisfied and comes back for more. The new honey grades are "Fancy," "Choice" and "Manufacturers," applying to the four classes "White," "Golden," "Amber" and "Dark"; each good and each suiting a special purpose.

FEEDING MORE CATTLE

The latest issue of the Live Stock Market Report shows a strong increase in the movement of store cattle and calves to feed lots. Up to the last week in October 73,000 head of store cattle had moved from stockyards to feed lots as compared with 60,000 for the past year. The increase in the movement of store calves is also holding its own with the past year. The outstanding feature of the situation is the big movement of western cattle into eastern feed lots, which for the 41 weeks of the year shows a total of 22,000 head, more than 100 per cent ahead of last year. At the present time orders for good stock exceeds the supply of the right sort of cattle. Lack of quality has a detrimental effect on the market.

The population of Burns Lake is 202, of Smithers 999, and Terrace is 352, according to the census taken by the Dominion government last summer.

Here and There

(701) The Nova Scotia fish catch for December last was 12,161,800 lbs., having a landed value of \$266,111, as compared with a catch of 10,480,700 lbs. with a value of \$329,552, for the corresponding month of the previous year.

Total amount of capital invested in Canada from other countries as at the end of 1930 was \$6,375,533,000, an increase of \$229,000,000 as compared with the total at the end of 1929. Of this outside investment, 61 per cent. is said to be from the United States; 35 per cent. British; and 4 per cent. from other countries.

The yield of potatoes in Canada in 1930 totalled 81,933,333 bushels, from 574,500 acres, an average yield of about 142 bushels per acre. In 1929 the yield was 66,550,000 bushels from 543,727 acres, or an average yield of 122 bushels per acre. Potatoes are grown successfully in commercial quantities in every province of the Dominion.

The Canadian Pacific Railway has announced placing of orders with the Algoma Steel Company of Sault Ste Marie for 30,000 tons of 130 lbs steel rail for spring delivery, representing a value of approximately \$1,500,000. This unusually heavy rail will be laid on 150 miles of the company's main line in the Mountain Division of British Columbia.

Prescott, Ont., Canada's newest national port, is rapidly approaching completion. The \$5,500,000 terminal which the Canadian Government is building, there as a turning point for the Upper Great Lakes grain boats when they come down through the Welland Canal in the spring of this year will be ready for traffic in advance.

Doubling Retail Business In Five Years

An
Advertisement
Addressed to

To double a retail business
in five years, add 15 per cent.
to the sales of the preceeding
year. At the end of 5 years
sales will be double their pre-
sent amount.

Our
Local
Retailers

Increasing one's sales to the extent of fifteen per cent. per annum can be accomplished in two main ways. Thus:—

1. Increase the amount of each sales transaction by an average of 15 per cent. (Note this is not the same as raising your prices 15 per cent. To do that would be fatal, even if possible.)
2. Increase the number of customers served daily to the extent of 15 per cent.

Good salesmanship will enable a retailer to raise the level of his average sales transaction—with advantage to both his customer and himself. Thus, a well informed buyer will readily pay 20 cents or 25 cents more

for a pair of gloves or stockings, or shoes, or for a piece of enamelware, if the better value of the higher priced article is well presented.

But the better way of raising sales to the extent of 15 per cent. is to increase the number of your customers. Customer increase comes from (1) satisfactory service (2) satisfactory goods and prices (3) good window displays, and (4) good advertisements in this newspaper.

Men and women buyers always want to be informed, in their homes through newspaper advertisements, about things which they plan to buy; and they are responsive to retailers' invitations. Also, they like to see the advertisements of those retailers whose customers they are.

A silent merchant can hardly hope to increase his business; and it is pretty certain he will not double it in five years.

George Little Terrace, B.C.

E. T. Kenney joined the party of Masons from Prince Rupert on Saturday and journeyed to Smithers for the official visit of the D.D.G.M.

Mrs. E. Dix left on Monday for a trip to Prince Rupert.

J. Hepburn is out again after his recent indisposition.

Mrs. A. Atree is a guest of friends in Prince Rupert.

Lakelse Valley school is reported to have reached its full seating capacity; fourteen children are enrolled.

The first real touch of winter came on Friday night when a heavy frost and north wind hit the district. Saturday morning with the ground hard and clear sunshine over the valley.

Some local pole operators report receiving a number of enquiries and a moderate revival seems to be indicated. It would help a great deal.

Cons. McKenney made a trip to Usk the first of last week.

Apples are moving well and there is indicated a stiffening of the price in the near future.

T. C. M. Turner is making alterations to the store recently occupied by Jas. Richmond Ltd. Two stores are being made out of the building.

Mrs. E. M. Smith is reported as making a good recovery.

G. Fagan is digging a well for his father-in-law S. Wilkinson.

Local nimrods are bringing in good bags of wild ducks from their favorite hunting grounds.

Coveys of well developed pheasants are being seen at various points. All these birds are from the original birds brought in a couple of years ago and they seem to be thriving under local conditions. Their ability to undergo a normal winter will be watched carefully, and if they pull through successfully there should be an open season declared in a year or two.

EGG-A-DAY RECORD BACKED BY FIGURES

Probably no country in the world can equal or even come close to the Canadian record of a per capita consumption of over an egg a day. That this claim is no idle boast is proven by official figures just published by the Dominion Bureau of Statistics. These figures, after balancing exports against imports and taking into account stock on hand, show an apparent egg consumption of 304,094,500 dozen. These are figures that talk. They represent the huge total of 3,649,134,108 eggs consumed within the Dominion by a population officially estimated at 9,350,000—in other words 366.1 eggs per person, or just over one egg a day for every man, woman and child in Canada.

This compares strikingly with an egg consumption of 227,190,015 dozen ten years ago, a per capita average of 262 per annum, and 265,783,655 dozen in 1926, or 338.4 per capita.

More interesting still, however, is the value this represents as an industry and adjunct of farm operations. The 1930-31 production sold at an average price for the year of 35.8 cents to consumers means that Canadian housewives paid over the counter of retail stores a total of no less than \$117,176,380.06. And this for only one item in the range of the animal products industry. What did this mean to Canadian farmers? Using the consumption

total as representing the capacity of the domestic market, and on a basis of the average price for the year of 22 cents per dozen to farmers, this represents a farm revenue totalling the sum of \$69,941,737.07.

And the difference between these totals, some \$47,234,548, is what eggs contributed directly to "business" in the whole round of transportation, storage, merchandising and incidental costs. With a market paying an average of 38.5 cents per dozen for his eggs, the farmer realized an average of 23 cents per dozen, and marketing costs totalling 15.5 cents per dozen. These figures tell a real story.

QUALITY BRINGS PREMIUM

Any farmer in the least degree skeptical of the real value of quality in his produce attracting real interest on the part of the consumer needs only to visit a city like Montreal, stroll along St. Catherine Street, particularly in the dusk of the early evening, and watch the eager crowds admire striking window displays of poultry, meat, butter, eggs, fruits, vegetables and canned goods, all graded and displayed to show excellence of quality as marked by the government grades. This is the season when poultry holds the centre of attraction, and no farmer or poultryman could fail to get enthusiastic were he to see the evident quality and finish of "A" grade poultry (and the price tag on them) or to see the number of really fine birds which pass over the counter in the better stores of the busy shopping districts. Quality not only brings a premium, but also develops demand. Feed your stock to a finish and cash in on quality.

Terrace Notes

Orders were issued on Monday for the closing of the two tent camps in the Skeena district. These are the Hot Springs road camp near Terrace and the Boulder Creek camp near Kitwanga. The men from the Hot Springs camp were moved to Childe-mach camp near Usk, while the men from Boulder creek went to Cedarvale.

P. Hustin, inspector for the Liquor Control Board was in Terrace last Monday.

Cold weather up country is sending a lot of ice down the Skeena—just a gentle reminder of what is coming a little later on.

R. Hansen of Exstew was in town last week.

G. Bills of Kalum Lake is registered at the Philbert Hotel.

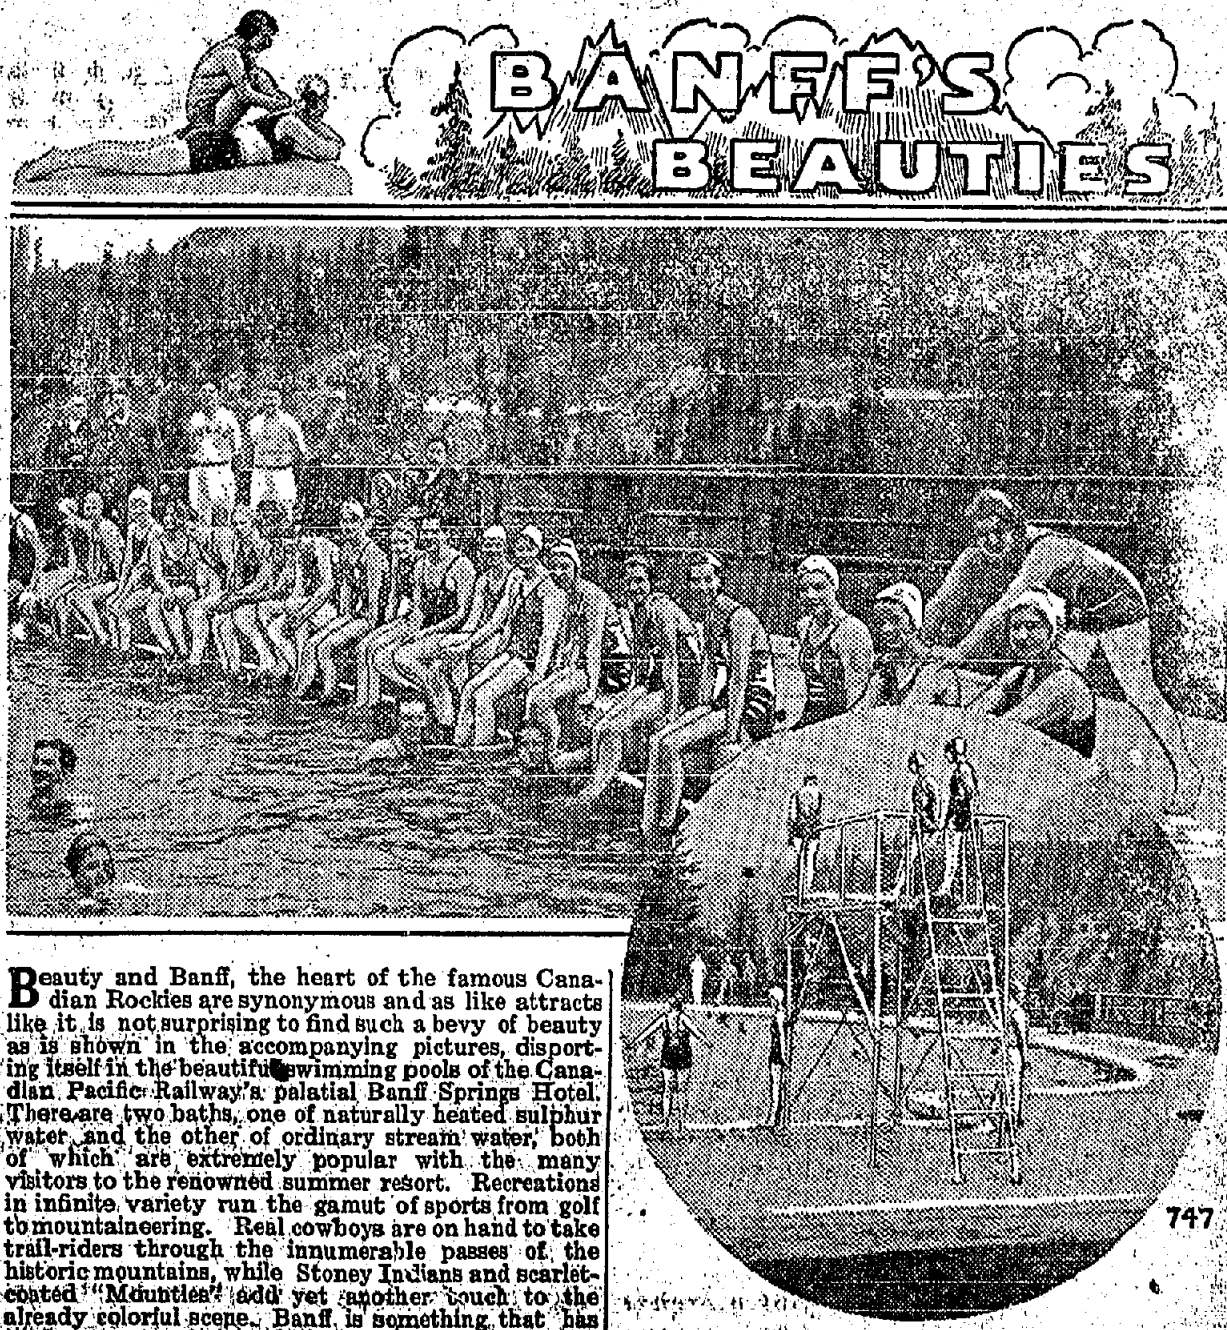

The cold snap has made some good ice around town for skating. In the Horseshoe north of town large stretches with a good surface have been used during the week. At one point 50 people were seen enjoying themselves.

Miss Fanny McLaren, R.N., returned to Terrace on Saturday.

Miss Williams, sister of Mrs. McPherson of Lakelse Lake left for her home in Vancouver Sunday morning. She has been spending some time with her sister at the new home near the hatchery wharf.

Mr. Oswald, fire marshal, was in town on Monday checking up local conditions.

J. E. Malkin of the firm of Malkin Ltd., is spending a few days in town looking over business conditions.

Beauty and Banff, the heart of the famous Canadian Rockies are synonymous and as like attracts like it is not surprising to find such a bevy of beauty as is shown in the accompanying pictures, disporting itself in the beautiful swimming pools of the Canadian Pacific Railway's palatial Banff Springs Hotel. There are two baths, one of naturally heated sulphur water, and the other of ordinary stream water, both of which are extremely popular with the many visitors to the renowned summer resort. Recreations in infinite variety run the gamut of sports from golf to mountaineering. Real cowboys are on hand to take trail-riders through the innumerable passes of the historic mountains, while Stoney Indians and scarlet-coated "Mounties" add yet another touch to the already colorful scene. Banff is something that has to be seen to be appreciated. Its devotees come yearly from the four corners of the globe. There is always something new; always something to do, and when the long happy day is over, dancing to the smart orchestras in the spacious ball room of the hotel

forms a fitting prelude to a restful night in the health-giving mountain atmosphere. Yes, Banff is beauty and beauty is Banff and the smiles on the faces of its mermaids speak volumes for the happiness of this great playground.

SALE OF WORK HOME COOKING

Under the auspices of the W. A. of St. Peter's Church

To be held in HAZELTON
FRIDAY, NOV. 27

This is the annual event and all are invited to attend. It will be a
good place to shop for Christmas.

BOTTLE TOO SMALL NOW PRICES AWAY TOO HIGH

There was something in the paper a few days ago about the government making smaller bottles for liquor so the poor man might taste it once in a while. It does not make any difference how small the bottle might be no man other than ultra-rich can afford to buy liquor in B. C. at the present prices. It is not the bottle that needs to be smaller, but the price. The present prices are just common thieving, and this is not political; as both parties are equally guilty and both the Dominion and Provincial governments are guilty of this stealing. They are killing the goose of the golden egg.

Mrs. W. W. Anderson is able to be around again after being tied up with the flu for two or three weeks. She says the flu is not popular with her.

FEEDING MORE CATTLE

The latest issue of the Live Stock Market Report shows a strong increase in the movement of store cattle and calves to feed lots. Up to the last week in October 73,000 head of store cattle had moved from stockyards to feed lots as compared with 60,000 for the past year. The increase in the movement of store calves is also holding its own with the past year. The outstanding feature of the situation is the big movement of western cattle into eastern feed lots, which for the 41 weeks of the year shows a total of 22,000 head, more than 100 per cent ahead of last year. At the present time orders for good stock exceeds the supply of the right sort of cattle. Lack of quality has a detrimental effect on the market.

Short Stories

Close to Home

Two below zero was reported here last Sunday. The thermometers vary a few degrees and so do the reports.

Mrs. R. S. Sargent and Mrs. Frank St. Amour, her sister of Prince Rupert who had been visiting her for several weeks, left last week for Sacramento, Cal. where their father, Joseph Barbeau, is seriously ill.

If the young people figure on using Six Mile hill for sleighriding on they have another think coming. It has been tried other years, but the police stopped it on authority from the public works department. Main highways are for cars and horses, not for children to slide on. It is too dangerous for all parties.

Government Agent Campbell has returned to Smithers after an absence of several weeks. He went south on a holiday and contracted pneumonia. He is now quite well and was welcomed home by many friends.

One of the men in New Hazelton who has a trap line says that he was up the mountain the other day and found that right in the timber there is four feet of snow. After today's storm there is likely to be another foot or two.

The Hazelton Glee Club met at the home of Rev. and Mrs. Redman on Tuesday night last.

For change of C. N. R. time table see adv. on last page.

Mrs. Sawle will leave in the morning for Prince Rupert to spend a few days a guest of Mrs. D. McD. Hunter.

Wm. Ware of Vancouver, inspector of H. B. fur trading posts in B. C., is on a periodical trip to his district.

Capt. Mortimer, Indian Agent at Hazelton, accompanied by Corpl. Berger of the R.C.M.P., made a trip to Burns Lake the first of the week to see Indian Agent Moore of Stuart Lake. They report the roads in the east end in a rather dangerous condition and that it is very difficult to keep on the road.

The population of Burns Lake is 202, of Smithers 999, and Terrace is 352, according to the census taken by the Dominion government last summer.

There was a dance last Saturday night in honor of Mr. and Mrs. Geo. Alger, who were recently married. A very enjoyable time was spent. Seventeen people came from Terrace thus expressing the esteem of the district for the happy couple.

Here and There

One thousand men will be employed and over \$500,000 expended on highway repairs in Cape Breton and Richmond counties, Nova Scotia, during the coming autumn.

Miss Pauline Garon, Montreal motion-picture queen, formerly of Hollywood, sailed on the Canadian Pacific liner "Montcalm" recently, to make pictures in England and France.

Salmon taken in 1930 from British Columbia waters totalled close on 37,000,000 weighing more than 210,000,000 pounds. Number of fish was 9,500,000 more than in the biggest previous salmon catch year of 1926.

The New Brunswick Government is preparing to face the problem of unemployment on a practical basis this winter and has instituted a registration system through city and town clerks, who will gather full data as to out-of-works and their families.

Sir Lionel Fletcher, captain of the British rifle team, which competed against Canadian shots at Toronto and Ottawa, following the historic Bisley meeting, was warm in praise of Connaught Rangers, on his return to England. It is hoped that another Old Country team will compete in Canada next year.

Queen Helene of Roumania and her sister, Princess Irene of Greece, gave British railroad officials a shock recently, by travelling from London to Scotland, third class. The Queen smilingly declared that she was very comfortable and did not want people to know she was travelling.

The name of Admiral of the Fleet Earl Jellicoe has been added to the long list of distinguished travellers over Canadian Pacific steamship and rail lines. "Hell-fire Jack," as he is affectionately called, arrived in Montreal on August 22, on the liner "Duchess of York," to open the Canadian National Exhibition, at Toronto.
